CORPORATE CSI PARTNERSHIP PROPOSAL

Sasol Limited × ASCO

Secunda Community Eco-Stewardship and Skills Initiative

Requested CSI investment: R150,000

Proposed implementation area: Secunda and surrounding Metsimaholo Local Municipality communities, Mpumalanga, South Africa (proposed; confirm as a Sasol fenceline/community-priority area before submission).

Prepared: October 2026

Confidential proposal for corporate CSI / ESG consideration. This document presents a proposed partnership and does not represent an award, endorsement, existing partnership or company commitment.

Executive summary

ASCO is seeking a strategic corporate CSI partnership with **Sasol Limited** to support a measurable public-benefit initiative: **Secunda Community Eco-Stewardship and Skills Initiative**. The proposed request is **R150,000**, to be applied to direct programme delivery, participation access, safety, learning materials, monitoring and accountable reporting.

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

> **The proposal in one sentence:** Secunda Community Eco-Stewardship and Skills Initiative in Secunda and surrounding Metsimaholo Local Municipality communities, Mpumalanga, South Africa (proposed; confirm as a Sasol fenceline/community-priority area before submission)., benefiting Proposed beneficiaries: residents, youth and community-based groups in the confirmed target communities, with priority consideration for unemployed or under-resourced participants and local environmental volunteers; final numbers and inclusion criteria to be agreed through local consultation. through a locally designed, monitored and reportable intervention aligned with Sasol Limited's publicly documented priorities, subject to the company's confirmation of eligibility and application requirements.

What ASCO is requesting
R150,000 in CSI support, or a partial/in-kind contribution structured with the company.

What the funding would enable
Direct activities, participation access, safe delivery, community materials, monitoring and a close-out report.

About ASCO

ASCO is a community-focused civic organisation promoting social justice, community development, active citizenship, African unity, environmental sustainability, inclusion and sustainable public-benefit action. ASCO works through advocacy, education, grassroots initiatives, humanitarian and community-development activities, partnerships and practical interventions.

ASCO is governed by four Directors. The Board governs and Executive Management manages. ASCO maintains governance, donation, safeguarding, financial-management, data-protection, monitoring and reporting instruments for responsible partnership administration.

ASCO's primary contact for this proposal is:

Mr. Bhekisisa (Mdu) Shandu
Executive Director
African Solidarity Civic Organisation (ASCO)

The proposed project

Project title
Secunda Community Eco-Stewardship and Skills Initiative

Implementation period
Proposed 6–12 month pilot, with final schedule agreed after eligibility, baseline and permissions are confirmed.

Location
Secunda and surrounding Metsimaholo Local Municipality communities, Mpumalanga, South Africa (proposed; confirm as a Sasol fenceline/ community-priority area before submission).

Target beneficiaries
Proposed beneficiaries: residents, youth and community-based groups in the confirmed target communities, with priority consideration for unemployed or under-resourced participants and local environmental volunteers; final numbers and inclusion criteria to be agreed through local consultation.

Proposed outputs and targets

The following are proposed planning targets, not completed results. Final targets should be agreed with the company after baseline assessment, budget confirmation and any required stakeholder permissions.

- Proposed: complete a participatory baseline and community-priority validation with relevant local stakeholders before implementation.
- Proposed: train and engage at least 40 local participants in environmental stewardship, safe waste practices, water awareness and basic project monitoring.
- Proposed: deliver 4 community environmental action days and 1 locally managed demonstration site, subject to permissions and technical feasibility.
- Proposed: remove, sort or divert at least 2 tonnes of recoverable waste, or use a different site-appropriate metric validated at baseline; do not report this as achieved in advance.
- Proposed: establish a simple monitoring dashboard covering participation, activities, waste/materials, site condition and community feedback, with a close-out report and financial reconciliation.
- Proposed: develop at least 2 local environmental action plans with community groups or schools, subject to stakeholder consent and safeguarding requirements.

Expected outcomes

- Improved community participation and practical public-benefit action in the selected location.
- Improved access to relevant learning, environmental, inclusion, humanitarian or youth-development support, depending on the project design.
- Documented implementation evidence, beneficiary participation and lessons for continuation or scale-up.
- Clear accountability through expenditure records, activity updates, monitoring information and a close-out report.

Why this matters

The proposed intervention responds to a community-development need through the sequence **community need → practical intervention → measurable result**. The final baseline will verify the specific need, beneficiary profile, site conditions, permissions and appropriate indicators before implementation.

ASCO will avoid overstating the problem or claiming results in advance. Where waste, participation, learning, environmental condition, referrals or other outputs are measurable, ASCO will use simple evidence tools such as attendance registers, baseline/endline checks, activity logs, photographs with consent, beneficiary feedback and expenditure records.

> **Evidence discipline:** All numbers in this proposal are either company-reported context from official sources or clearly labelled ASCO planning targets. No completed result, partnership or funding commitment is claimed.

Why Sasol Limited?

A carefully scoped ASCO proposal could potentially align with Sasol's stated emphasis on fenceline-community priorities, measurable socio-economic impact, shared-value partnerships, SDGs 12, 13 and 17, and environmental-footprint improvement. A project combining community-led environmental stewardship (for example, restoration, waste reduction, water-awareness or biodiversity-support activities) with local skills, participation and transparent monitoring could fit those themes, subject to Sasol confirming that the proposed site is within a relevant operating/fenceline geography and that the activity meets its internal CSI requirements. This is a thematic alignment only and does not imply Sasol support, partnership or commitment.

Verified company context

- Sasol states that its social-investment approach responds to data-supported community priorities, using stakeholder forums, surveys and direct meetings, and aligns programmes with local communities and national, provincial and local authorities in its operating geographies.
- Sasol frames social investment around measurable socio-economic impact, relevance to stakeholder expectations, and shared-value partnerships.
- Sasol says its social-investment programmes are implemented within fenceline communities and that it seeks inclusive, sustainable development in the geographies and communities where it operates, with roots in South Africa.
- Sasol's ESG priorities include minimising environmental impact, supporting people and communities, and governance; its prioritised SDGs include SDG 8 (decent work and economic growth), SDG 9 (industry, innovation and infrastructure), SDG 12 (responsible consumption and production), SDG 13 (climate action), and SDG 17 (partnerships).
- The 2024 Integrated Report identifies environmental stewardship as a material matter and references environmental-footprint improvement, water targets, biodiversity targets, circularity, renewable-energy uptake and a greenhouse-gas reduction roadmap among relevant actions or metrics.
- The 2024 Integrated Report states that Sasol committed R693.2 million in social investment globally in FY2024; this is a company-wide reported figure, not an indication that ASCO would receive funding.

Company facts are drawn from official sources reviewed for this proposal. They describe public priorities or reported company activity; they are not promises of funding to ASCO.

Indicative project budget

The requested amount is allocated transparently across delivery and accountability categories. The budget is indicative and should be refined with the company after the implementation site, beneficiary profile, quotations and eligible-cost rules are confirmed.

Budget category	Indicative amount	Use
Direct programme implementation	R90,000	Core activities, local delivery inputs and community implementation for the proposed project.
Participant transport and access	R12,000	Reasonable access support to enable participation, subject to eligibility and records.
Safety equipment and participant welfare	R9,000	PPE, first aid, safeguarding, water/refreshments and safe participation requirements.
Educational and mobilisation materials	R12,000	Learning resources, community mobilisation and accessible communication.
Monitoring, evaluation and reporting	R10,500	Baseline, attendance, outcome tracking, documentation and close-out reporting.
Volunteer/project coordination	R10,500	Scheduling, volunteer support, stakeholder coordination and implementation management.
Reasonable administration	R6,000	Reasonable project administration directly attributable to delivery; no inflated overheads.
Total requested CSI investment	**R150,000**	**Equals the proposed request.**

Administration is limited to a reasonable project share. ASCO will not promise audited financial statements unless they are available; it will provide appropriate project expenditure records and supporting documentation.

Partnership options

Option A — Full project funding
Company funds the proposed project at R150,000, subject to approval and agreement.

Option B — Partial project funding
Company contributes a defined portion of the budget, with scope and outputs adjusted transparently.

Option C — Multi-phase partnership
Company supports a pilot followed by an agreed continuation or scale-up phase based on evidence.

In-kind or technical support
Where relevant, equipment, expertise, access or employee volunteering may complement cash support, subject to written agreement.

Accountability and reporting

ASCO will maintain appropriate records relating to funded activities and can provide, subject to agreed requirements:

- Project implementation updates
- Expenditure records and supporting documentation
- Attendance and participation information where appropriate and lawfully collected
- Photographs and activity evidence with appropriate consent
- Safeguarding and incident records where relevant
- Monitoring and outcome information
- Activity and close-out reports

ASCO will agree reporting frequency, eligible costs, procurement expectations, data protection, branding, acknowledgement and any site-access or technical requirements before implementation. Any use of company branding or recognition will be subject to written approval.

Initial contact route

Primary official route: email Sasol CSI and Community Affairs at csr@sasol.com via https://www.sasol.com/contact-us. Include ASCO's profile, PBO reference 930092287, the R150,000 request, proposed site, outcomes, budget, governance documents and a request for current eligibility/application instructions. Sasol's listed switchboard is +27 10 344 5000. No public CSI application form or open-call route was found on the reviewed official pages.

ASCO welcomes an initial discussion to confirm whether the proposed project is within the company's current CSI/ESG remit, whether unsolicited proposals are accepted, what documents are required, and whether the full, partial or in-kind partnership option is most suitable.

Important conditions and open questions

- Sasol's public pages do not establish that ASCO, its proposed activity or its preferred site is eligible, nor do they state that unsolicited proposals are accepted.
- The public materials reviewed do not provide a current, detailed CSI eligibility checklist, funding ceiling, application deadline, due-diligence list or standard proposal template; confirm these directly with csr@sasol.com.
- A Secunda/Metsimaholo location is a proposal recommendation, not a verified Sasol-approved project site or existing ASCO-Sasol relationship; confirm local priority and stakeholder consent before submission.
- Environmental work may require municipal, landowner, community, environmental, health-and-safety or other regulatory permissions; do not present operational remediation or compliance work as a charitable project without Sasol and regulator confirmation.
- Do not claim Section 18A approval, completed results, existing partnerships or Sasol commitments. Any tax deductibility, reporting, branding, procurement, safeguarding and monitoring conditions must be agreed in writing.
- The R150,000 ask is a proposed request and is not tied to any publicly stated Sasol grant programme.

These cautions are included to prevent overstatement. They should be resolved with the company before ASCO treats the proposal as eligible or finalises a submission budget.

Closing

ASCO believes meaningful social and environmental progress is achieved through collaboration between communities, civil society and responsible corporate partners. We invite **Sasol Limited** to join us in delivering measurable public-benefit impact through a carefully scoped and accountable partnership.
