Section 18A Approved

CORPORATE CSI PARTNERSHIP PROPOSAL

Anglo American / Chairman's Fund × ASCO

Proposed Community Eco-Livelihoods and Local Participation Initiative

Requested CSI investment: R100,000

Proposed implementation area: South Africa—specific municipality/community to be selected after an Anglo American host-community and needs-eligibility confirmation; no location is asserted as currently eligible.

Prepared: October 2026

Confidential proposal for corporate CSI / ESG consideration. This document presents a proposed partnership and does not represent an award, endorsement, existing partnership or company commitment.

Executive summary

ASCO is seeking a strategic corporate CSI partnership with **Anglo American / Chairman's Fund** to support a measurable public-benefit initiative: **Proposed Community Eco-Livelihoods and Local Participation Initiative**. The proposed request is **R100,000**, to be applied to direct programme delivery, participation access, safety, learning materials, monitoring and accountable reporting.

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

> **The proposal in one sentence:** Proposed Community Eco-Livelihoods and Local Participation Initiative in South Africa—specific municipality/community to be selected after an Anglo American host-community and needs-eligibility confirmation; no location is asserted as currently eligible., benefiting Proposed: residents of the confirmed host or nearby community, prioritising unemployed/ underemployed youth, women-led households, local community organisations and small/emerging local enterprises; final numbers and eligibility to be set through a documented needs assessment. through a locally designed, monitored and reportable intervention aligned with Anglo American / Chairman's Fund's publicly documented priorities, subject to the company's confirmation of eligibility and application requirements.

What ASCO is requesting
R100,000 in CSI support, or a partial/in-kind contribution structured with the company.

What the funding would enable
Direct activities, participation access, safe delivery, community materials, monitoring and a close-out report.

About ASCO

ASCO is a community-focused civic organisation promoting social justice, community development, active citizenship, African unity, environmental sustainability, inclusion and sustainable public-benefit action. ASCO works through advocacy, education, grassroots initiatives, humanitarian and community-development activities, partnerships and practical interventions.

ASCO is governed by four Directors. The Board governs and Executive Management manages. ASCO maintains governance, donation, safeguarding, financial-management, data-protection, monitoring and reporting instruments for responsible partnership administration.

ASCO's primary contact for this proposal is:

Mr. Bhekisisa (Mdu) Shandu

The proposed project

Project title
Proposed Community Eco-Livelihoods and Local Participation Initiative

Implementation period
Proposed 6–12 month pilot, with final schedule agreed after eligibility, baseline and permissions are confirmed.

Location
South Africa—specific municipality/community to be selected after an Anglo American host-community and needs-eligibility confirmation; no location is asserted as currently eligible.

Target beneficiaries
Proposed: residents of the confirmed host or nearby community, prioritising unemployed/underemployed youth, women-led households, local community organisations and small/emerging local enterprises; final numbers and eligibility to be set through a documented needs assessment.

Proposed outputs and targets

The following are proposed planning targets, not completed results. Final targets should be agreed with the company after baseline assessment, budget confirmation and any required stakeholder permissions.

- Proposed target: complete one participatory baseline and community environmental-needs assessment in the confirmed location.
- Proposed target: establish or support 3–5 locally governed environmental stewardship actions, such as restoration, waste reduction, water conservation or biodiversity monitoring, subject to permissions and technical review.
- Proposed target: train at least 50 local participants, with participation disaggregated by gender and age, in practical stewardship, maintenance and/or livelihood skills.
- Proposed target: support at least 10 local micro/enterprise or community-group initiatives through locally appropriate training, small equipment or market-readiness support, subject to funder approval.
- Proposed target: create a community monitoring dashboard with baseline, quarterly progress measures, financial controls, safeguarding checks and a close-out report; all targets are proposed, not completed results.
- Proposed target: procure eligible goods/services locally where feasible and document local participation, value and jobs/opportunities supported; this is an aspiration, not a guaranteed outcome.

Expected outcomes

- Improved community participation and practical public-benefit action in the selected location.
- Improved access to relevant learning, environmental, inclusion, humanitarian or youth-development support, depending on the project design.
- Documented implementation evidence, beneficiary participation and lessons for continuation or scale-up.
- Clear accountability through expenditure records, activity updates, monitoring information and a close-out report.

Why this matters

The proposed intervention responds to a community-development need through the sequence **community need → practical intervention → measurable result**. The final baseline will verify the specific need, beneficiary profile, site conditions, permissions and appropriate indicators before implementation.

ASCO will avoid overstating the problem or claiming results in advance. Where waste, participation, learning, environmental condition, referrals or other outputs are measurable, ASCO will use simple evidence tools such as attendance registers, baseline/endline checks, activity logs, photographs with consent, beneficiary feedback and expenditure records.

> **Evidence discipline:** All numbers in this proposal are either company-reported context from official sources or clearly labelled ASCO planning targets. No completed result, partnership or funding commitment is claimed.

Why Anglo American / Chairman's Fund?

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

Verified company context

- Anglo American's official South Africa page describes the Chairman's Fund as a long-running CSI vehicle for South Africa, with investments historically ranging from grassroots initiatives to capital projects and service-delivery programmes in partnership with local government and communities.
- The official Chairman's Fund page lists historical focus areas including healthcare, welfare, education, entrepreneurial development and poverty alleviation/community development; this page is dated 4 February 2014, so current funding practice must be reconfirmed.
- Anglo American's current Thriving Communities strategy says it works with host communities to support inclusive growth, social outcomes and long-term economic resilience beyond the life of operations.
- The current strategy identifies education, health and well-being, and livelihoods as focus areas; livelihoods include local economic participation, enterprise development and youth employment.
- Anglo American's 2024 Sustainability Report sets 2030 goals including net-positive biodiversity impact across managed operations and a 50% reduction in fresh-water withdrawals in water-scarce areas, and identifies environmental harm, water, biodiversity and community development as stakeholder concerns.
- The Sustainability Report describes collaborative regional development as intended to catalyse independent, scalable and sustainable economic development around operations, improving lives beyond mine life.

Company facts are drawn from official sources reviewed for this proposal. They describe public priorities or reported company activity; they are not promises of funding to ASCO.

Indicative project budget

The requested amount is allocated transparently across delivery and accountability categories. The budget is indicative and should be refined with the company after the implementation site, beneficiary profile, quotations and eligible-cost rules are confirmed.

Budget category	Indicative amount	Use
Direct programme implementation	R60,000	Core activities, local delivery inputs and community implementation for the proposed project.
Participant transport and access	R8,000	Reasonable access support to enable participation, subject to eligibility and records.
Safety equipment and participant welfare	R6,000	PPE, first aid, safeguarding, water/refreshments and safe participation requirements.
Educational and mobilisation materials	R8,000	Learning resources, community mobilisation and accessible communication.
Monitoring, evaluation and reporting	R7,000	Baseline, attendance, outcome tracking, documentation and close-out reporting.
Volunteer/project coordination	R7,000	Scheduling, volunteer support, stakeholder coordination and implementation management.
Reasonable administration	R4,000	Reasonable project administration directly attributable to delivery; no inflated overheads.
Total requested CSI investment	**R100,000**	**Equals the proposed request.**

Administration is limited to a reasonable project share. ASCO will not promise audited financial statements unless they are available; it will provide appropriate project expenditure records and supporting documentation.

Partnership options

Option A — Full project funding
Company funds the proposed project at R100,000, subject to approval and agreement.

Option B — Partial project funding
Company contributes a defined portion of the budget, with scope and outputs adjusted transparently.

Option C — Multi-phase partnership
Company supports a pilot followed by an agreed continuation or scale-up phase based on evidence.

In-kind or technical support
Where relevant, equipment, expertise, access or employee volunteering may complement cash support, subject to written agreement.

Accountability and reporting

ASCO will maintain appropriate records relating to funded activities and can provide, subject to agreed requirements:

- Project implementation updates
- Expenditure records and supporting documentation
- Attendance and participation information where appropriate and lawfully collected
- Photographs and activity evidence with appropriate consent
- Safeguarding and incident records where relevant
- Monitoring and outcome information
- Activity and close-out reports

ASCO will agree reporting frequency, eligible costs, procurement expectations, data protection, branding, acknowledgement and any site-access or technical requirements before implementation. Any use of company branding or recognition will be subject to written approval.

Initial contact route

Use Anglo American South Africa’s official contact route: general enquiries +27 11 638 9111 or the feedback/enquiry form at https://southafrica.angloamerican.com/contact-us. The same page directs sponsorship enquiries to https://southafrica.angloamerican.com/about-us/sponsorship. No dedicated current Chairman’s Fund application route was found; ask the official contact team to confirm the correct CSI/sponsorship channel and current eligibility before submission. ASCO’s stated contact is +27 76 757 5773 and https://www.africansolidaritycivic.org/.

ASCO welcomes an initial discussion to confirm whether the proposed project is within the company's current CSI/ESG remit, whether unsolicited proposals are accepted, what documents are required, and whether the full, partial or in-kind partnership option is most suitable.

Important conditions and open questions

- Do not present the 2012 Chairman’s Fund spend or the 2014 page as current funding levels, current priorities or an open call.
- No official source reviewed confirmed a current Chairman’s Fund application window, minimum/maximum grant, geographic eligibility, co-funding rule, reporting format or environmental-project exclusions.
- Anglo American’s current strategy is framed around host communities and regions where it operates; ASCO should obtain confirmation that a proposed site is within an eligible Anglo-linked geography before developing a full budget.
- Section 18A receipts may be issued only for qualifying donations used solely for ASCO?s two approved Section 18A activities: human rights and democracy, and family stability. This proposal does not represent a completed donation or tax deduction.
- The proposal must not claim completed ASCO results, existing Anglo/ASCO partnerships, or any Anglo American commitment.
- Environmental stewardship should be scoped to lawful, evidence-based activities and screened for permissions, land access, safeguarding, monitoring and any duplication with Anglo operational/community programmes.

These cautions are included to prevent overstatement. They should be resolved with the company before ASCO treats the proposal as eligible or finalises a submission budget.

Closing

ASCO believes meaningful social and environmental progress is achieved through collaboration between communities, civil society and responsible corporate partners. We invite **Anglo American / Chairman's Fund** to join us in delivering measurable public-benefit impact through a carefully scoped and accountable partnership.
