Section 18A Approved

CORPORATE CSI PARTNERSHIP PROPOSAL

Gra-Tech × ASCO

Proposed Germiston Community Environmental Stewardship and Skills Support Project

Requested CSI investment: R25,000

Proposed implementation area: Klippoortjie AH and nearby Germiston communities, Gauteng, subject to Gra-Tech and municipal confirmation

Prepared: October 2026

Confidential proposal for corporate CSI / ESG consideration. This document presents a proposed partnership and does not represent an award, endorsement, existing partnership or company commitment.

Executive summary

ASCO is seeking a strategic corporate CSI partnership with **Gra-Tech** to support a measurable public-benefit initiative: **Proposed Germiston Community Environmental Stewardship and Skills Support Project**. The proposed request is **R25,000**, to be applied to direct programme delivery, participation access, safety, learning materials, monitoring and accountable reporting.

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

> **The proposal in one sentence:** Proposed Germiston Community Environmental Stewardship and Skills Support Project in Klippoortjie AH and nearby Germiston communities, Gauteng, subject to Gra-Tech and municipal confirmation, benefiting Proposed beneficiaries: residents and youth in communities near Gra-Tech's Germiston head office, with priority to underserved households and local community/environment volunteers; final beneficiary selection should follow a needs assessment and safeguarding review. through a locally designed, monitored and reportable intervention aligned with Gra-Tech's publicly documented priorities, subject to the company's confirmation of eligibility and application requirements.

What ASCO is requesting
R25,000 in CSI support, or a partial/in-kind contribution structured with the company.

What the funding would enable
Direct activities, participation access, safe delivery, community materials, monitoring and a close-out report.

About ASCO

ASCO is a community-focused civic organisation promoting social justice, community development, active citizenship, African unity, environmental sustainability, inclusion and sustainable public-benefit action. ASCO works through advocacy, education, grassroots initiatives, humanitarian and community-development activities, partnerships and practical interventions.

ASCO is governed by four Directors. The Board governs and Executive Management manages. ASCO maintains governance, donation, safeguarding, financial-management, data-protection, monitoring and reporting instruments for responsible partnership administration.

ASCO's primary contact for this proposal is:

Mr. Bhekisisa (Mdu) Shandu

The proposed project

Project title
Proposed Germiston Community Environmental Stewardship and Skills Support Project

Implementation period
Proposed 6–12 month pilot, with final schedule agreed after eligibility, baseline and permissions are confirmed.

Location
Klippoortjie AH and nearby Germiston communities, Gauteng, subject to Gra-Tech and municipal confirmation

Target beneficiaries
Proposed beneficiaries: residents and youth in communities near Gra-Tech's Germiston head office, with priority to underserved households and local community/environment volunteers; final beneficiary selection should follow a needs assessment and safeguarding review.

Proposed outputs and targets

The following are proposed planning targets, not completed results. Final targets should be agreed with the company after baseline assessment, budget confirmation and any required stakeholder permissions.

- Proposed target: complete 1 locally approved environmental clean-up, greening or waste-awareness activity in the Germiston area.
- Proposed target: engage at least 50 local residents or youth participants, with attendance and demographic records.
- Proposed target: establish or restore 1 community environmental site, subject to landowner and municipal permission.
- Proposed target: deliver 2 practical environmental-awareness sessions and distribute locally appropriate educational materials.
- Proposed target: provide a short completion report with photographs, participation totals, expenditure records and lessons learned; all targets remain proposed pending approval and baseline assessment.

Expected outcomes

- Improved community participation and practical public-benefit action in the selected location.
- Improved access to relevant learning, environmental, inclusion, humanitarian or youth-development support, depending on the project design.
- Documented implementation evidence, beneficiary participation and lessons for continuation or scale-up.
- Clear accountability through expenditure records, activity updates, monitoring information and a close-out report.

Why this matters

The proposed intervention responds to a community-development need through the sequence **community need → practical intervention → measurable result**. The final baseline will verify the specific need, beneficiary profile, site conditions, permissions and appropriate indicators before implementation.

ASCO will avoid overstating the problem or claiming results in advance. Where waste, participation, learning, environmental condition, referrals or other outputs are measurable, ASCO will use simple evidence tools such as attendance registers, baseline/endline checks, activity logs, photographs with consent, beneficiary feedback and expenditure records.

> **Evidence discipline:** All numbers in this proposal are either company-reported context from official sources or clearly labelled ASCO planning targets. No completed result, partnership or funding commitment is claimed.

Why Gra-Tech?

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

Verified company context

- Gra-Tech describes itself as an African leader, innovator and developer of industrial chemical cleaning and treatment solutions, working on major industrial projects across Africa.
- The official website states that the business has delivered solutions for more than 40 years, manages in excess of $10 billion in assets, and has a track record in client satisfaction, safety and sustainability.
- Its listed services include chemical cleaning, chemical treatments, high-pressure water jetting, aerial inspection, precious-metal recovery and specialist consulting.
- The official website identifies the head office as Barracuda Road, Klippoortjie AH, Germiston 1422, South Africa, with contact details info@gra-tech.co.za and +27 11 824 1518.
- Gra-Tech's official news page contains a 2018 article reporting a 25.1% stake acquisition by Serialong Trust and Afrika Tikkun Capital; the article describes intended growth, sustainability, corporate resilience and transformation, but it is not a current CSI policy or funding call.
- No formal current CSI/ESG policy, foundation, grant criteria, annual/integrated report or public application route was found on the reviewed official pages.

Company facts are drawn from official sources reviewed for this proposal. They describe public priorities or reported company activity; they are not promises of funding to ASCO.

Indicative project budget

The requested amount is allocated transparently across delivery and accountability categories. The budget is indicative and should be refined with the company after the implementation site, beneficiary profile, quotations and eligible-cost rules are confirmed.

Budget category	Indicative amount	Use
Direct programme implementation	R15,100	Core activities, local delivery inputs and community implementation for the proposed project.
Participant transport and access	R2,000	Reasonable access support to enable participation, subject to eligibility and records.
Safety equipment and participant welfare	R1,500	PPE, first aid, safeguarding, water/refreshments and safe participation requirements.
Educational and mobilisation materials	R2,000	Learning resources, community mobilisation and accessible communication.
Monitoring, evaluation and reporting	R1,700	Baseline, attendance, outcome tracking, documentation and close-out reporting.
Volunteer/project coordination	R1,700	Scheduling, volunteer support, stakeholder coordination and implementation management.
Reasonable administration	R1,000	Reasonable project administration directly attributable to delivery; no inflated overheads.
Total requested CSI investment	**R25,000**	**Equals the proposed request.**

Administration is limited to a reasonable project share. ASCO will not promise audited financial statements unless they are available; it will provide appropriate project expenditure records and supporting documentation.

Partnership options

Option A — Full project funding
Company funds the proposed project at R25,000, subject to approval and agreement.

Option B — Partial project funding
Company contributes a defined portion of the budget, with scope and outputs adjusted transparently.

Option C — Multi-phase partnership
Company supports a pilot followed by an agreed continuation or scale-up phase based on evidence.

In-kind or technical support
Where relevant, equipment, expertise, access or employee volunteering may complement cash support, subject to written agreement.

Accountability and reporting

ASCO will maintain appropriate records relating to funded activities and can provide, subject to agreed requirements:

- Project implementation updates
- Expenditure records and supporting documentation
- Attendance and participation information where appropriate and lawfully collected
- Photographs and activity evidence with appropriate consent
- Safeguarding and incident records where relevant
- Monitoring and outcome information
- Activity and close-out reports

ASCO will agree reporting frequency, eligible costs, procurement expectations, data protection, branding, acknowledgement and any site-access or technical requirements before implementation. Any use of company branding or recognition will be subject to written approval.

Initial contact route

Use Gra-Tech's official website contact form or contact info@gra-tech.co.za / +27 11 824 1518, addressed to the appropriate CSI/ESG, stakeholder-relations or executive contact. No dedicated CSI application route was found. ASCO contact details for the proposal: +27 76 757 5773 and https://www.africansolidaritycivic.org/.

ASCO welcomes an initial discussion to confirm whether the proposed project is within the company's current CSI/ESG remit, whether unsolicited proposals are accepted, what documents are required, and whether the full, partial or in-kind partnership option is most suitable.

Important conditions and open questions

- Gra-Tech's public website does not establish a current CSI budget, preferred causes, eligibility rules, geographic scope for grants, procurement requirements or donation decision process.
- The sustainability and transformation statements in the 2018 official-hosted news article should not be treated as a current corporate commitment without confirmation.
- Section 18A receipts may be issued only for qualifying donations used solely for ASCO?s two approved Section 18A activities: human rights and democracy, and family stability. This proposal does not represent a completed donation or tax deduction.
- No company commitment, completed ASCO result, partnership or endorsement is established by these sources; obtain written confirmation before describing the proposal as approved.
- Chemical cleaning and industrial operations may involve environmental, health and safety sensitivities; avoid implying technical remediation, hazardous-waste handling or regulatory compliance unless qualified specialists and permissions are in place.

These cautions are included to prevent overstatement. They should be resolved with the company before ASCO treats the proposal as eligible or finalises a submission budget.

Closing

ASCO believes meaningful social and environmental progress is achieved through collaboration between communities, civil society and responsible corporate partners. We invite **Gra-Tech** to join us in delivering measurable public-benefit impact through a carefully scoped and accountable partnership.
