Section 18A Approved

CORPORATE CSI PARTNERSHIP PROPOSAL

Spur Foundation (Spur Corporation) × ASCO

Digital Futures and Community Mentorship for Under-Resourced Young Learners

Requested CSI investment: R75,000

Proposed implementation area: A selected under-resourced South African community, with Gauteng/Soweto as a proposal option because Spur has publicly documented a current youth digital-learning initiative there; final site should be justified by ASCO need data and confirmed with Spur.

Prepared: October 2026

Confidential proposal for corporate CSI / ESG consideration. This document presents a proposed partnership and does not represent an award, endorsement, existing partnership or company commitment.

Executive summary

ASCO is seeking a strategic corporate CSI partnership with **Spur Foundation (Spur Corporation)** to support a measurable public-benefit initiative: **Digital Futures and Community Mentorship for Under-Resourced Young Learners**. The proposed request is **R75,000**, to be applied to direct programme delivery, participation access, safety, learning materials, monitoring and accountable reporting.

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

> **The proposal in one sentence:** Digital Futures and Community Mentorship for Under-Resourced Young Learners in A selected under-resourced South African community, with Gauteng/Soweto as a proposal option because Spur has publicly documented a current youth digital-learning initiative there; final site should be justified by ASCO need data and confirmed with Spur., benefiting Proposed: approximately 100–150 young learners, prioritising children in an under-resourced school/ community, plus participating educators, caregivers and youth mentors; final age range should be set to match Spur's ECD/young-learner priorities and ASCO's approved objects. through a locally designed, monitored and reportable intervention aligned with Spur Foundation (Spur Corporation)'s publicly documented priorities, subject to the company's confirmation of eligibility and application requirements.

What ASCO is requesting
R75,000 in CSI support, or a partial/in-kind contribution structured with the company.

What the funding would enable
Direct activities, participation access, safe delivery, community materials, monitoring and a close-out report.

About ASCO

ASCO is a community-focused civic organisation promoting social justice, community development, active citizenship, African unity, environmental sustainability, inclusion and sustainable public-benefit action. ASCO works through advocacy, education, grassroots initiatives, humanitarian and community-development activities, partnerships and practical interventions.

ASCO is governed by four Directors. The Board governs and Executive Management manages. ASCO maintains governance, donation, safeguarding, financial-management, data-protection, monitoring and reporting instruments for responsible partnership administration.

ASCO's primary contact for this proposal is:

The proposed project

Project title
Digital Futures and Community Mentorship for Under-Resourced Young Learners

Implementation period
Proposed 6–12 month pilot, with final schedule agreed after eligibility, baseline and permissions are confirmed.

Location
A selected under-resourced South African community, with Gauteng/Soweto as a proposal option because Spur has publicly documented a current youth digital-learning initiative there; final site should be justified by ASCO need data and confirmed with Spur.

Target beneficiaries
Proposed: approximately 100–150 young learners, prioritising children in an under-resourced school/community, plus participating educators, caregivers and youth mentors; final age range should be set to match Spur's ECD/young-learner priorities and ASCO's approved objects.

Proposed outputs and targets

The following are proposed planning targets, not completed results. Final targets should be agreed with the company after baseline assessment, budget confirmation and any required stakeholder permissions.

- Proposed: deliver a structured 12-month youth/community-development programme at one selected site, subject to feasibility and funder approval.
- Proposed: enrol approximately 100–150 learners and record attendance, completion and demographic information with appropriate consent and safeguarding controls.
- Proposed: provide at least 24 facilitated learning/mentorship sessions covering age-appropriate digital/problem-solving, life or civic skills and collaborative projects; adapt content if Spur requires an ECD-focused model.
- Proposed: train or orient 8–12 educators, volunteers or youth mentors to support safe, consistent delivery.
- Proposed: complete at least 4 community/family engagement sessions and produce a baseline/endline report with participation, outputs, lessons and expenditure evidence.
- All targets are proposed planning targets, not verified results or commitments.

Expected outcomes

- Improved community participation and practical public-benefit action in the selected location.
- Improved access to relevant learning, environmental, inclusion, humanitarian or youth-development support, depending on the project design.
- Documented implementation evidence, beneficiary participation and lessons for continuation or scale-up.
- Clear accountability through expenditure records, activity updates, monitoring information and a close-out report.

Why this matters

The proposed intervention responds to a community-development need through the sequence **community need → practical intervention → measurable result**. The final baseline will verify the specific need, beneficiary profile, site conditions, permissions and appropriate indicators before implementation.

ASCO will avoid overstating the problem or claiming results in advance. Where waste, participation, learning, environmental condition, referrals or other outputs are measurable, ASCO will use simple evidence tools such as attendance registers, baseline/endline checks, activity logs, photographs with consent, beneficiary feedback and expenditure records.

> **Evidence discipline:** All numbers in this proposal are either company-reported context from official sources or clearly labelled ASCO planning targets. No completed result, partnership or funding commitment is claimed.

Why Spur Foundation (Spur Corporation)?

A cautious alignment case is possible if ASCO submits a clearly scoped South African youth/community-development project that is genuinely within its approved public-benefit objects and can evidence delivery capacity. A project combining foundational digital/coding and problem-solving activities with youth mentorship, educator/volunteer support and measurable community participation would complement Spur's documented interests in children, learning, skills, inclusion and under-resourced communities. The proposed fit is thematic only: no partnership, funding commitment or endorsement by Spur Foundation is established, and ASCO's specific programme model should be confirmed in the application.

Verified company context

- Spur Corporation describes the Spur Foundation as its CSI channel and states that it was established on 18 July 2012 to uplift South African families, especially children.
- The current official Spur Corporation page says the Foundation is predominantly focused on early childhood development, including supporting ECD practitioners, school readiness, ECD resources, parent education/support groups, play and maternal health.
- Official sustainability reporting describes the Full Tummy Fund as focused on ECD and nutrition for children up to age six from disadvantaged communities, including practitioner training, ECD-centre educational materials and meals.
- The Foundation's stated geographic scope is South Africa; reported examples include Gauteng, Eastern Cape and Western Cape, and the current brand initiatives page describes support for under-resourced communities across South Africa.
- Spur Corporation's official February 2026 news release describes Panarottis Coding Futures as supporting coding, computational thinking, robotics, problem-solving, digital inclusion and teacher empowerment for learners aged 7–12 in under-resourced schools; the reported launch site was Hlakaniphani Primary School in Soweto.
- The official Spur Foundation contact route published by Spur Corporation is spurfoundation@spur.co.za. The current Foundation website provides project information and a general contact/about-us route but no public open-grant application form was located in the reviewed official sources.

Company facts are drawn from official sources reviewed for this proposal. They describe public priorities or reported company activity; they are not promises of funding to ASCO.

Indicative project budget

The requested amount is allocated transparently across delivery and accountability categories. The budget is indicative and should be refined with the company after the implementation site, beneficiary profile, quotations and eligible-cost rules are confirmed.

Budget category	Indicative amount	Use
Direct programme implementation	R45,100	Core activities, local delivery inputs and community implementation for the proposed project.
Participant transport and access	R6,000	Reasonable access support to enable participation, subject to eligibility and records.
Safety equipment and participant welfare	R4,500	PPE, first aid, safeguarding, water/refreshments and safe participation requirements.
Educational and mobilisation materials	R6,000	Learning resources, community mobilisation and accessible communication.
Monitoring, evaluation and reporting	R5,200	Baseline, attendance, outcome tracking, documentation and close-out reporting.
Volunteer/project coordination	R5,200	Scheduling, volunteer support, stakeholder coordination and implementation management.
Reasonable administration	R3,000	Reasonable project administration directly attributable to delivery; no inflated overheads.
Total requested CSI investment	**R75,000**	**Equals the proposed request.**

Administration is limited to a reasonable project share. ASCO will not promise audited financial statements unless they are available; it will provide appropriate project expenditure records and supporting documentation.

Partnership options

Option A — Full project funding
Company funds the proposed project at R75,000, subject to approval and agreement.

Option B — Partial project funding
Company contributes a defined portion of the budget, with scope and outputs adjusted transparently.

Option C — Multi-phase partnership
Company supports a pilot followed by an agreed continuation or scale-up phase based on evidence.

In-kind or technical support
Where relevant, equipment, expertise, access or employee volunteering may complement cash support, subject to written agreement.

Accountability and reporting

ASCO will maintain appropriate records relating to funded activities and can provide, subject to agreed requirements:

- Project implementation updates
- Expenditure records and supporting documentation
- Attendance and participation information where appropriate and lawfully collected
- Photographs and activity evidence with appropriate consent
- Safeguarding and incident records where relevant
- Monitoring and outcome information
- Activity and close-out reports

ASCO will agree reporting frequency, eligible costs, procurement expectations, data protection, branding, acknowledgement and any site-access or technical requirements before implementation. Any use of company branding or recognition will be subject to written approval.

Initial contact route

Primary official route: email spurfoundation@spur.co.za (Spur Foundation & Brand Initiatives), as published at https://spurcorporation.com/greater-good/spur-foundation/. If necessary, copy or follow up via Spur Corporation at spur@spur.co.za or +27 (11) 287 5300 / +27 (21) 555 5100. No public open-grant application route was found in the reviewed official sources; ask the Foundation to confirm whether unsolicited proposals are accepted and request current eligibility/application requirements.

ASCO welcomes an initial discussion to confirm whether the proposed project is within the company's current CSI/ESG remit, whether unsolicited proposals are accepted, what documents are required, and whether the full, partial or in-kind partnership option is most suitable.

Important conditions and open questions

- Spur's strongest documented Foundation priority is early childhood development and children, especially ages up to six; a general youth project serving older beneficiaries may need a stronger child-development, school-readiness, digital-learning or community-education rationale.
- The public sources reviewed do not state a current external-grant cycle, minimum/maximum award, eligibility checklist, deadline, geographic restriction by province, reporting template or whether unsolicited proposals are accepted.
- Historical reports mention employee and franchisee funds and named beneficiary partners; these should not be interpreted as an open application route for ASCO or as evidence of a current commitment.
- Do not claim that Spur Foundation has approved, reviewed or committed to this proposal. Confirm eligibility and due-diligence requirements directly before budgeting around the R75,000 ask.
- ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.
- No completed ASCO results, existing Spur partnership or company commitment should be stated without documentary evidence.

These cautions are included to prevent overstatement. They should be resolved with the company before ASCO treats the proposal as eligible or finalises a submission budget.

Closing

ASCO believes meaningful social and environmental progress is achieved through collaboration between communities, civil society and responsible corporate partners. We invite **Spur Foundation (Spur Corporation)** to join us in delivering measurable public-benefit impact through a carefully scoped and accountable partnership.
