The proposed project

Project title
Learning Hubs for Youth Opportunity: Literacy, Numeracy and Career Readiness

Implementation period
Proposed 6–12 month pilot, with final schedule agreed after eligibility, baseline and permissions are confirmed.

Location
Eastern Cape, South Africa, subject to Liberty/ASCO due diligence and confirmation of an eligible school or community implementation partner

Target beneficiaries
Proposed: Black learners and young people in underserved Eastern Cape communities, prioritising upper-primary and early-secondary ages, with teachers/facilitators and caregivers as secondary beneficiaries; final numbers and beneficiary profile should be validated locally.

Proposed outputs and targets

The following are proposed planning targets, not completed results. Final targets should be agreed with the company after baseline assessment, budget confirmation and any required stakeholder permissions.

- Proposed: establish or strengthen 10 community-linked learning hubs in eligible schools or community sites.
- Proposed: provide structured literacy and numeracy support to 500 learners over the grant period, with baseline and endline assessment.
- Proposed: train 30 teachers or community facilitators in evidence-informed learning support and safeguarding.
- Proposed: deliver 12 career-readiness sessions for older youth, including subject/career information and referral pathways.
- Proposed: produce quarterly monitoring reports covering attendance, participation, learning measures, safeguarding and expenditure; targets are not Liberty commitments.

Expected outcomes

- Improved community participation and practical public-benefit action in the selected location.
- Improved access to relevant learning, environmental, inclusion, humanitarian or youth-development support, depending on the project design.
- Documented implementation evidence, beneficiary participation and lessons for continuation or scale-up.
- Clear accountability through expenditure records, activity updates, monitoring information and a close-out report.

Why this matters

The proposed intervention responds to a community-development need through the sequence **community need → practical intervention → measurable result**. The final baseline will verify the specific need, beneficiary profile, site conditions, permissions and appropriate indicators before implementation.

ASCO will avoid overstating the problem or claiming results in advance. Where waste, participation, learning, environmental condition, referrals or other outputs are measurable, ASCO will use simple evidence tools such as attendance registers, baseline/endline checks, activity logs, photographs with consent, beneficiary feedback and expenditure records.

> **Evidence discipline:** All numbers in this proposal are either company-reported context from official sources or clearly labelled ASCO planning targets. No completed result, partnership or funding commitment is claimed.

Why Liberty Group Limited (South Africa)?

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

Verified company context

- Liberty's published CSI funding focus is education, especially maths and science development, teacher training and development, learner-outcome improvement, and education-linked projects.
- Liberty states that eligible applicants must be organisations registered as NPOs with the South African Department of Social Development's NPO Directorate, and that more than 75% of beneficiaries must be Black.
- Liberty excludes non-registered entities/NPOs, profit or individual-gain projects, standalone workshops/events/conferences unless integral to an education programme, government-responsibility large infrastructure, major capital expenditure unless implementation-related, and political or religious organisations.
- Liberty Community Trust (LCT) aims to improve learning outcomes of young people in South Africa through education enabling sustainable economic inclusion; its strategic priorities are career development, foundation-phase literacy, and enhanced primary-school leadership and governance.
- LCT says it prefers established nonprofit organisations, does not respond to unsolicited public or nonprofit funding requests, and looks for measurable impact, additionality, scalability, pioneering approaches, and innovation.
- Liberty's official primary-school initiative describes support for Grades R–7 mathematics and language learning resources in 20 schools, with teacher and parent support; this is evidence of an education-oriented model, not a commitment to ASCO.

Company facts are drawn from official sources reviewed for this proposal. They describe public priorities or reported company activity; they are not promises of funding to ASCO.

Indicative project budget

The requested amount is allocated transparently across delivery and accountability categories. The budget is indicative and should be refined with the company after the implementation site, beneficiary profile, quotations and eligible-cost rules are confirmed.

Budget category	Indicative amount	Use
Direct programme implementation	R60,000	Core activities, local delivery inputs and community implementation for the proposed project.
Participant transport and access	R8,000	Reasonable access support to enable participation, subject to eligibility and records.
Safety equipment and participant welfare	R6,000	PPE, first aid, safeguarding, water/refreshments and safe participation requirements.
Educational and mobilisation materials	R8,000	Learning resources, community mobilisation and accessible communication.
Monitoring, evaluation and reporting	R7,000	Baseline, attendance, outcome tracking, documentation and close-out reporting.
Volunteer/project coordination	R7,000	Scheduling, volunteer support, stakeholder coordination and implementation management.
Reasonable administration	R4,000	Reasonable project administration directly attributable to delivery; no inflated overheads.
Total requested CSI investment	**R100,000**	**Equals the proposed request.**

Administration is limited to a reasonable project share. ASCO will not promise audited financial statements unless they are available; it will provide appropriate project expenditure records and supporting documentation.

Partnership options

Option A — Full project funding
Company funds the proposed project at R100,000, subject to approval and agreement.

Option B — Partial project funding
Company contributes a defined portion of the budget, with scope and outputs adjusted transparently.

Option C — Multi-phase partnership
Company supports a pilot followed by an agreed continuation or scale-up phase based on evidence.

In-kind or technical support
Where relevant, equipment, expertise, access or employee volunteering may complement cash support, subject to written agreement.

Accountability and reporting

ASCO will maintain appropriate records relating to funded activities and can provide, subject to agreed requirements:

- Project implementation updates
- Expenditure records and supporting documentation
- Attendance and participation information where appropriate and lawfully collected
- Photographs and activity evidence with appropriate consent
- Safeguarding and incident records where relevant
- Monitoring and outcome information
- Activity and close-out reports

ASCO will agree reporting frequency, eligible costs, procurement expectations, data protection, branding, acknowledgement and any site-access or technical requirements before implementation. Any use of company branding or recognition will be subject to written approval.

Initial contact route

Official general CSI route: csi@liberty.co.za or +27 11 408 3209; Liberty lists the CSI team at 1 Ameshoff Street, Braamfontein, Johannesburg 2001. LCT page lists Nomaxabiso Matjila (nomaxabiso.matjila@liberty.co.za) and Arthur Moeletsane (arthur.moeletsane@liberty.co.za), but states that LCT does not respond to unsolicited funding requests. No public online application form was found on the reviewed official pages.

ASCO welcomes an initial discussion to confirm whether the proposed project is within the company's current CSI/ESG remit, whether unsolicited proposals are accepted, what documents are required, and whether the full, partial or in-kind partnership option is most suitable.

Important conditions and open questions

- ASCO's supplied facts do not confirm registration with the Department of Social Development's NPO Directorate; Liberty expressly lists that registration as an eligibility condition.
- Section 18A approved | Effective 9 October 2026
- LCT does not accept unsolicited funding requests, so an unsolicited approach to the Trust may not be effective; the general CSI route should be checked first.
- Liberty's published focus is education rather than broad community development. A proposal centred mainly on livelihoods, events, welfare, sport or general infrastructure may fall outside the stated fit.
- No current call, application form, funding cycle, grant-size guidance, geographic restriction beyond South Africa, or reporting template was found on the reviewed official pages.
- The R100,000 ask is a proposal amount only; Liberty's official pages reviewed do not indicate that this amount is available or appropriate.

These cautions are included to prevent overstatement. They should be resolved with the company before ASCO treats the proposal as eligible or finalises a submission budget.

Closing

ASCO believes meaningful social and environmental progress is achieved through collaboration between communities, civil society and responsible corporate partners. We invite **Liberty Group Limited (South Africa)** to join us in delivering measurable public-benefit impact through a carefully scoped and accountable partnership.
