This procedure establishes one auditable Donation Register for all donations and ensures each receipt can be traced from offer or payment through verification, accounting, allocation, acknowledgement, reconciliation and reporting.

2. Numbering Convention

Each donation receives a unique reference in the format ASCO-DON-YYYYMMDD-NNN, where YYYYMMDD is the date received and NNN is the sequential number for that date. Example: ASCO-DON-20260916-001. The sequence is maintained by the Gift Administrator, never reused, and voided references remain in the register with an explanation.

3. Required Recording Workflow

1. Create a provisional reference when the offer or payment is identified.
2. Record donor and donation details from reliable source documents.
3. Mark due-diligence status and approval status.
4. Record the accounting and bank/payment reference only after verification.
5. Record restrictions and project designation exactly as accepted in writing.
6. Issue acknowledgement and record the date and method.
7. Reconcile to bank, cash, payment processor or asset records.
8. Close the entry only when discrepancies are resolved or escalated.
