CORPORATE CSI PARTNERSHIP PROPOSAL

TotalEnergies South Africa × ASCO

Western Cape Youth Coastal Stewardship and Green Skills Programme

Requested CSI investment: R100,000

Proposed implementation area: Western Cape, South Africa, subject to TotalEnergies confirming geographic and site eligibility

Prepared: October 2026

Confidential proposal for corporate CSI / ESG consideration. This document presents a proposed partnership and does not represent an award, endorsement, existing partnership or company commitment.

Executive summary

ASCO is seeking a strategic corporate CSI partnership with **TotalEnergies South Africa** to support a measurable public-benefit initiative: **Western Cape Youth Coastal Stewardship and Green Skills Programme**. The proposed request is **R100,000**, to be applied to direct programme delivery, participation access, safety, learning materials, monitoring and accountable reporting.

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

> **The proposal in one sentence:** Western Cape Youth Coastal Stewardship and Green Skills Programme in Western Cape, South Africa, subject to TotalEnergies confirming geographic and site eligibility, benefiting Proposed: socially vulnerable young people in a Western Cape coastal community, with indirect benefits for local residents and coastal ecosystems; final participant numbers and community site should be confirmed through needs assessment and local stakeholder engagement. through a locally designed, monitored and reportable intervention aligned with TotalEnergies South Africa's publicly documented priorities, subject to the company's confirmation of eligibility and application requirements.

What ASCO is requesting
R100,000 in CSI support, or a partial/in-kind contribution structured with the company.

What the funding would enable
Direct activities, participation access, safe delivery, community materials, monitoring and a close-out report.

About ASCO

ASCO is a community-focused civic organisation promoting social justice, community development, active citizenship, African unity, environmental sustainability, inclusion and sustainable public-benefit action. ASCO works through advocacy, education, grassroots initiatives, humanitarian and community-development activities, partnerships and practical interventions.

ASCO is governed by four Directors. The Board governs and Executive Management manages. ASCO maintains governance, donation, safeguarding, financial-management, data-protection, monitoring and reporting instruments for responsible partnership administration.

ASCO's primary contact for this proposal is:

Mr. Bhekisisa (Mdu) Shandu
Executive Director
African Solidarity Civic Organisation (ASCO)

Tel: +27 76 757 5773
Website: https://www.africansolidaritycivic.org/

The proposed project

Project title
Western Cape Youth Coastal Stewardship and Green Skills Programme

Implementation period
Proposed 6–12 month pilot, with final schedule agreed after eligibility, baseline and permissions are confirmed.

Location
Western Cape, South Africa, subject to TotalEnergies confirming geographic and site eligibility

Target beneficiaries
Proposed: socially vulnerable young people in a Western Cape coastal community, with indirect benefits for local residents and coastal ecosystems; final participant numbers and community site should be confirmed through needs assessment and local stakeholder engagement.

Proposed outputs and targets

The following are proposed planning targets, not completed results. Final targets should be agreed with the company after baseline assessment, budget confirmation and any required stakeholder permissions.

- Proposed target: engage 100 socially vulnerable young people in practical coastal stewardship, climate literacy and employability/soft-skills sessions over 12 months.
- Proposed target: deliver 12 community environmental learning and action days, with attendance, activity logs and pre/post knowledge checks.
- Proposed target: complete 6 locally approved coastal clean-up, habitat-care or biodiversity-monitoring activities, subject to permissions and ecological guidance.
- Proposed target: train 20 youth peer leaders in safe volunteer practice, waste separation, basic environmental observation and community mobilisation.
- Proposed target: produce one baseline/final impact report covering participants reached, volunteer hours, materials/waste handled where measurable, lessons learned and safeguarding evidence.

Expected outcomes

- Improved community participation and practical public-benefit action in the selected location.
- Improved access to relevant learning, environmental, inclusion, humanitarian or youth-development support, depending on the project design.
- Documented implementation evidence, beneficiary participation and lessons for continuation or scale-up.
- Clear accountability through expenditure records, activity updates, monitoring information and a close-out report.

Why this matters

The proposed intervention responds to a community-development need through the sequence **community need → practical intervention → measurable result**. The final baseline will verify the

specific need, beneficiary profile, site conditions, permissions and appropriate indicators before implementation.

ASCO will avoid overstating the problem or claiming results in advance. Where waste, participation, learning, environmental condition, referrals or other outputs are measurable, ASCO will use simple evidence tools such as attendance registers, baseline/endline checks, activity logs, photographs with consent, beneficiary feedback and expenditure records.

> **Evidence discipline:** All numbers in this proposal are either company-reported context from official sources or clearly labelled ASCO planning targets. No completed result, partnership or funding commitment is claimed.

Why TotalEnergies South Africa?

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

Verified company context

- TotalEnergies South Africa identifies young people as the focus of supported initiatives, with four stated priority areas: Inclusion and Education; Road Safety; Climate, Coastal Areas and Oceans; and Cultural Dialogue and Heritage.
- The South Africa sustainability page says the company seeks to create prosperity in territories where it is present through local economic opportunities and involvement in host regions, notably through the TotalEnergies Foundation.
- The South Africa climate/coastal/oceans page states objectives of responding to climate-related challenges and supporting preservation of marine and coastal ecosystems; it lists Gauteng, Limpopo, Mpumalanga and Western Cape as initiative locations.
- The South Africa inclusion/education page targets young people from socially vulnerable backgrounds and lists Gauteng, Eastern Cape, Western Cape and Limpopo as initiative locations.
- TotalEnergies' global local-economic-development policy describes dialogue with host communities, impact management, local socio-economic development, local employment/subcontracting, and general-interest community projects.
- TotalEnergies Marketing South Africa states that it operates across South Africa and has 547 service stations; this establishes a national footprint but does not establish that every province is eligible for CSI funding.

Company facts are drawn from official sources reviewed for this proposal. They describe public priorities or reported company activity; they are not promises of funding to ASCO.

Indicative project budget

The requested amount is allocated transparently across delivery and accountability categories. The budget is indicative and should be refined with the company after the implementation site, beneficiary profile, quotations and eligible-cost rules are confirmed.

Budget category	Indicative amount	Use
Direct programme implementation	R60,000	Core activities, local delivery inputs and community implementation for the proposed project.
Participant transport and access	R8,000	Reasonable access support to enable participation, subject to eligibility and records.
Safety equipment and participant welfare	R6,000	PPE, first aid, safeguarding, water/refreshments and safe participation requirements.
Educational and mobilisation materials	R8,000	Learning resources, community mobilisation and accessible communication.
Monitoring, evaluation and reporting	R7,000	Baseline, attendance, outcome tracking, documentation and close-out reporting.
Volunteer/project coordination	R7,000	Scheduling, volunteer support, stakeholder coordination and implementation management.
Reasonable administration	R4,000	Reasonable project administration directly attributable to delivery; no inflated overheads.
Total requested CSI investment	**R100,000**	**Equals the proposed request.**

Administration is limited to a reasonable project share. ASCO will not promise audited financial statements unless they are available; it will provide appropriate project expenditure records and supporting documentation.

Partnership options

Option A — Full project funding
Company funds the proposed project at R100,000, subject to approval and agreement.

Option B — Partial project funding
Company contributes a defined portion of the budget, with scope and outputs adjusted transparently.

Option C — Multi-phase partnership
Company supports a pilot followed by an agreed continuation or scale-up phase based on evidence.

In-kind or technical support
Where relevant, equipment, expertise, access or employee volunteering may complement cash support, subject to written agreement.

Accountability and reporting

ASCO will maintain appropriate records relating to funded activities and can provide, subject to agreed requirements:

- Project implementation updates
- Expenditure records and supporting documentation
- Attendance and participation information where appropriate and lawfully collected
- Photographs and activity evidence with appropriate consent
- Safeguarding and incident records where relevant
- Monitoring and outcome information
- Activity and close-out reports

ASCO will agree reporting frequency, eligible costs, procurement expectations, data protection, branding, acknowledgement and any site-access or technical requirements before implementation. Any use of company branding or recognition will be subject to written approval.

Initial contact route

Start with TotalEnergies Marketing South Africa's official contact page/form: https://totalenergies.co.za/contact-us. The page lists 0860 111 111 and customerservice.tmsa@mail.totalenergies.com; submit an organisation enquiry with the concept note and request referral to the appropriate CSI/community-investment or Foundation contact. No dedicated CSI application route was found on the reviewed official pages. ASCO's supplied contact is +27 76 757 5773 and https://www.africansolidaritycivic.org/.

ASCO welcomes an initial discussion to confirm whether the proposed project is within the company's current CSI/ESG remit, whether unsolicited proposals are accepted, what documents are required, and whether the full, partial or in-kind partnership option is most suitable.

Important conditions and open questions

- No dedicated South African CSI application portal, open call, grant size guidance, or published eligibility criteria were found on the reviewed official pages; the contact route is therefore exploratory rather than a confirmed application channel.
- The TotalEnergies Foundation homepage appears primarily France-focused and does not confirm that the Foundation itself funds unsolicited projects in South Africa.
- TotalEnergies' published location lists are initiative-specific and should not be treated as a general geographic eligibility rule.
- Section 18A approved | Effective 9 October 2026
- Do not claim completed project results, existing partnerships, prior TotalEnergies support, or a company commitment; all project outputs below are proposed targets.
- The R100,000 ask is a proposal amount supplied for this exercise, not an amount published or endorsed by TotalEnergies.

These cautions are included to prevent overstatement. They should be resolved with the company before ASCO treats the proposal as eligible or finalises a submission budget.

Closing

ASCO believes meaningful social and environmental progress is achieved through collaboration between communities, civil society and responsible corporate partners. We invite **TotalEnergies South Africa** to join us in delivering measurable public-benefit impact through a carefully scoped and accountable partnership.
