ASCO is an approved SARS Public Benefit Organisation (PBO), reference no. 930092287. Section 18A approval remains pending.

Dear SARS Tax Exempt Institutions Team,

We refer to your Request for Supporting Documents dated 9 October 2026 concerning ASCO NPC's Section 18A application under case number 593304192.

ASCO has not yet completed its first financial year. As at the date of this letter, the organisation reports that it has not undertaken any financial transactions. Consequently, annual financial statements for a completed financial year are not yet available.

We respectfully request that SARS take note of the organisation's current circumstances and advise whether this explanation is sufficient at this stage or whether alternative supporting information, such as an opening statement of financial position, interim management accounts or other records appropriate to a newly established organisation, is required.

ASCO undertakes to maintain appropriate financial records and prepare its financial statements for the applicable reporting period in accordance with its legal obligations and relevant reporting requirements. The organisation will ensure that any reportable assets, liabilities, balances, commitments or transactions are properly recorded and disclosed where applicable.

This letter is submitted in response to the annual financial statements item in SARS's request. It does not replace the other supporting documents requested. ASCO will submit its founding document and its explanation of objectives and activities as part of its response.

We respectfully request that this explanation be added to the organisation's Section 18A application record and that the application continue to be considered. Please contact ASCO should any further information be required, quoting case number 593304192.

Yours faithfully,

Mr. Bhekisisa (Mdu) Shandu
