CORPORATE CSI PARTNERSHIP PROPOSAL

Futuregrowth Asset Management × ASCO

Western Cape Community Resilience and Sustainable Livelihoods Pilot

Requested CSI investment: R75,000

Proposed implementation area: Western Cape, South Africa (preferably a community accessible for Futuregrowth committee due diligence and monitoring; exact site to be confirmed with Futuregrowth)

Prepared: October 2026

Confidential proposal for corporate CSI / ESG consideration. This document presents a proposed partnership and does not represent an award, endorsement, existing partnership or company commitment.

Executive summary

ASCO is seeking a strategic corporate CSI partnership with **Futuregrowth Asset Management** to support a measurable public-benefit initiative: **Western Cape Community Resilience and Sustainable Livelihoods Pilot**. The proposed request is **R75,000**, to be applied to direct programme delivery, participation access, safety, learning materials, monitoring and accountable reporting.

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

> **The proposal in one sentence:** Western Cape Community Resilience and Sustainable Livelihoods Pilot in Western Cape, South Africa (preferably a community accessible for Futuregrowth committee due diligence and monitoring; exact site to be confirmed with Futuregrowth), benefiting Proposed: residents of a socio-economically disadvantaged Western Cape community, prioritising unemployed or under-resourced adults and youth identified through a transparent local needs assessment; final numbers and eligibility to be agreed with Futuregrowth. through a locally designed, monitored and reportable intervention aligned with Futuregrowth Asset Management's publicly documented priorities, subject to the company's confirmation of eligibility and application requirements.

What ASCO is requesting
R75,000 in CSI support, or a partial/in-kind contribution structured with the company.

What the funding would enable
Direct activities, participation access, safe delivery, community materials, monitoring and a close-out report.

About ASCO

ASCO is a community-focused civic organisation promoting social justice, community development, active citizenship, African unity, environmental sustainability, inclusion and sustainable public-benefit action. ASCO works through advocacy, education, grassroots initiatives, humanitarian and community-development activities, partnerships and practical interventions.

ASCO is governed by four Directors. The Board governs and Executive Management manages. ASCO maintains governance, donation, safeguarding, financial-management, data-protection, monitoring and reporting instruments for responsible partnership administration.

ASCO's primary contact for this proposal is:

Mr. Bhekisisa (Mdu) Shandu
Executive Director

The proposed project

Project title
Western Cape Community Resilience and Sustainable Livelihoods Pilot

Implementation period
Proposed 6–12 month pilot, with final schedule agreed after eligibility, baseline and permissions are confirmed.

Location
Western Cape, South Africa (preferably a community accessible for Futuregrowth committee due diligence and monitoring; exact site to be confirmed with Futuregrowth)

Target beneficiaries
Proposed: residents of a socio-economically disadvantaged Western Cape community, prioritising unemployed or under-resourced adults and youth identified through a transparent local needs assessment; final numbers and eligibility to be agreed with Futuregrowth.

Proposed outputs and targets

The following are proposed planning targets, not completed results. Final targets should be agreed with the company after baseline assessment, budget confirmation and any required stakeholder permissions.

- Proposed: one community needs assessment and baseline before implementation, with documented beneficiary-selection criteria.
- Proposed: a locally delivered community-development and sustainable-livelihoods programme over an agreed implementation period, with safeguarding and procurement records.
- Proposed: at least 40 direct participants completing structured skills, income-generation or community-resilience activities; target is provisional and must be validated against the final design and budget.
- Proposed: at least 2 practical community assets or initiatives maintained by beneficiaries (for example, food-security, recycling, water-saving or shared-enterprise activities), subject to feasibility and Futuregrowth approval.
- Proposed: quarterly progress updates, expenditure reporting, beneficiary evidence and a final outcome report suitable for Futuregrowth monitoring; all targets are proposed, not completed results.

Expected outcomes

- Improved community participation and practical public-benefit action in the selected location.
- Improved access to relevant learning, environmental, inclusion, humanitarian or youth-development support, depending on the project design.
- Documented implementation evidence, beneficiary participation and lessons for continuation or scale-up.
- Clear accountability through expenditure records, activity updates, monitoring information and a close-out report.

Why this matters

The proposed intervention responds to a community-development need through the sequence **community need → practical intervention → measurable result**. The final baseline will verify the

specific need, beneficiary profile, site conditions, permissions and appropriate indicators before implementation.

ASCO will avoid overstating the problem or claiming results in advance. Where waste, participation, learning, environmental condition, referrals or other outputs are measurable, ASCO will use simple evidence tools such as attendance registers, baseline/endline checks, activity logs, photographs with consent, beneficiary feedback and expenditure records.

> **Evidence discipline:** All numbers in this proposal are either company-reported context from official sources or clearly labelled ASCO planning targets. No completed result, partnership or funding commitment is claimed.

Why Futuregrowth Asset Management?

ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.

Verified company context

- Futuregrowth's CSI purpose is to make a meaningful, tangible difference to people most in need and contribute to positive change in South Africa.
- Futuregrowth states that it allocates 1% of after-tax profits to CSI; its internal CSI Committee evaluates funding or other-help requests, approves support and manages the CSI budget.
- The stated CSI focus areas are Social Development, Education and Health. Community development is therefore a plausible fit when framed under social development, but Futuregrowth does not state that every community-development proposal is eligible.
- The CSI page says 2025 applications are closed; no currently open funding round or detailed public eligibility checklist was identified on the reviewed official pages.
- Geographic preference is for areas committee members can personally visit for due diligence and monitoring. Futuregrowth says it may consider projects with regional impact across South Africa when trustworthy partners can conduct due diligence and monitoring.
- An official Futuregrowth CSI Committee article says Western Cape projects accessible from the company's offices are favoured, while regional projects may be considered with trustworthy partners. It also describes a preference for grassroots organisations and direct support to NPOs, subject to the company's process.

Company facts are drawn from official sources reviewed for this proposal. They describe public priorities or reported company activity; they are not promises of funding to ASCO.

Indicative project budget

The requested amount is allocated transparently across delivery and accountability categories. The budget is indicative and should be refined with the company after the implementation site, beneficiary profile, quotations and eligible-cost rules are confirmed.

Budget category	Indicative amount	Use
Direct programme implementation	R45,100	Core activities, local delivery inputs and community implementation for the proposed project.
Participant transport and access	R6,000	Reasonable access support to enable participation, subject to eligibility and records.
Safety equipment and participant welfare	R4,500	PPE, first aid, safeguarding, water/refreshments and safe participation requirements.
Educational and mobilisation materials	R6,000	Learning resources, community mobilisation and accessible communication.
Monitoring, evaluation and reporting	R5,200	Baseline, attendance, outcome tracking, documentation and close-out reporting.
Volunteer/project coordination	R5,200	Scheduling, volunteer support, stakeholder coordination and implementation management.
Reasonable administration	R3,000	Reasonable project administration directly attributable to delivery; no inflated overheads.
Total requested CSI investment	**R75,000**	**Equals the proposed request.**

Administration is limited to a reasonable project share. ASCO will not promise audited financial statements unless they are available; it will provide appropriate project expenditure records and supporting documentation.

Partnership options

Option A — Full project funding
Company funds the proposed project at R75,000, subject to approval and agreement.

Option B — Partial project funding
Company contributes a defined portion of the budget, with scope and outputs adjusted transparently.

Option C — Multi-phase partnership
Company supports a pilot followed by an agreed continuation or scale-up phase based on evidence.

In-kind or technical support
Where relevant, equipment, expertise, access or employee volunteering may complement cash support, subject to written agreement.

Accountability and reporting

ASCO will maintain appropriate records relating to funded activities and can provide, subject to agreed requirements:

- Project implementation updates
- Expenditure records and supporting documentation
- Attendance and participation information where appropriate and lawfully collected
- Photographs and activity evidence with appropriate consent
- Safeguarding and incident records where relevant
- Monitoring and outcome information
- Activity and close-out reports

ASCO will agree reporting frequency, eligible costs, procurement expectations, data protection, branding, acknowledgement and any site-access or technical requirements before implementation. Any use of company branding or recognition will be subject to written approval.

Initial contact route

Use Futuregrowth's official contact form at https://www.futuregrowth.co.za/contact, select the subject 'CSI Queries', and ask about the next application window, eligibility, required documents and whether a R75,000 Western Cape proposal may be considered. The official site also lists +27 21 659 5300. ASCO's contact details for the proposal are +27 76 757 5773 and https://www.africansolidaritycivic.org/.

ASCO welcomes an initial discussion to confirm whether the proposed project is within the company's current CSI/ESG remit, whether unsolicited proposals are accepted, what documents are required, and whether the full, partial or in-kind partnership option is most suitable.

Important conditions and open questions

- The official CSI page states that 2025 applications are closed; Futuregrowth's next opening date and whether unsolicited proposals are accepted are unknown.
- The reviewed official pages do not publish a full current eligibility list, minimum/maximum grant size, required attachments, decision timetable, renewal policy or exclusions. Confirm these directly before submitting.
- Futuregrowth's geographic preference and monitoring language may make a Western Cape project more competitive; a project elsewhere would likely need a credible local monitoring/due-diligence partner, subject to Futuregrowth approval.
- Futuregrowth names Social Development, Education and Health as CSI categories; do not assume environmental or climate-only work qualifies under CSI without confirmation.
- ASCO is approved to issue Section 18A receipts effective 9 October 2026. Receipts may be issued only for qualifying donations used solely for the approved Section 18A activities: human rights and democracy, and family stability.
- The R75,000 amount is ASCO's requested ask, not a published Futuregrowth award commitment.

These cautions are included to prevent overstatement. They should be resolved with the company before ASCO treats the proposal as eligible or finalises a submission budget.

Closing

ASCO believes meaningful social and environmental progress is achieved through collaboration between communities, civil society and responsible corporate partners. We invite **Futuregrowth Asset Management** to join us in delivering measurable public-benefit impact through a carefully scoped and accountable partnership.
